

551-88U-2485
Analyze Civil-Military Interagency Support to Rail Operations
Status: Approved

Distribution Restriction: Approved for public release; distribution is unlimited.

Destruction Notice: None

Foreign Disclosure: FD1 - This training product has been reviewed by the training developers in coordination with the Transportation School, Fort Lee, VA foreign disclosure officer. This training product can be used to instruct international military students from all approved countries without restrictions.

Conditions: Assigned as a Railway Specialist with the requirement to analyze civil-military interagency support to rail operations for COCOM/Host Nation personnel, given a completed risk assessment, all applicable publications, forms, records, materials, personnel, and equipment, in all weather conditions, day or night, and in an operational environment.

Standards: Analyze civil-military interagency support to rail operations in accordance with applicable regulations without causing injury to personnel or damage to equipment.

Special Conditions: None

Safety Risk: Low

MOPP 4:

Task Statements

Cue: You have been tasked to advise local COCOM and Host Nation personnel. You must first analyze the civil-military interagency support to rail operations.

DANGER

None

WARNING

None

CAUTION

None

Remarks: None

Notes: None

Performance Steps

1. Analyze Multinational Logistics
 - a. Define Multinational logistics.
 - b. Define the Joint Logistics Environment in Multinational Operations.
 - c. Define Logistics Principles.
 - d. Define Special Considerations in Organizing and Conducting Multinational Logistics Operations.
2. Analyze Logistic Capabilities.
 - a. Define Supply Operations.
 - b. Define Maintenance Operations.
 - c. Define Deployment and Distribution.
 - d. Define Health Service Support.
 - e. Define Engineering.
 - f. Define Logistic Services.
 - g. Define Operational Contract Support.
 - h. Define National Support Element.
 - i. Define Host-Nation Support.
 - j. Define Funding and Reimbursement.

(Asterisks indicates a leader performance step.)

Evaluation Guidance: Score the Soldier GO if all performance measures are passed. Score the Soldier NO-GO if any performance measure is failed. If any performance measure is failed, tell the Soldier what was done wrong and how to do it correctly.

Evaluation Preparation: Ensure that all materials required to perform the task are available. Tell the Soldier that he/she will be evaluated on analyzing civil-military interagency support to rail operations.

PERFORMANCE MEASURES	GO	NO-GO	N/A
1. Analyzed Multinational Logistics			
2. Analyzed Logistic Capabilities.

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to the current Environmental Considerations manual and the current GTA Environmental-related Risk Assessment card.

AR 200-1 delineates TRADOC responsibilities to integrate environmental requirements across DOTMLPF and ensures all training procedures, training manuals, and training doctrine includes sound environmental practices and considerations. The Army's environmental vision is to be a national leader in environmental and natural resource stewardship for present and future generations as an integral part of all Army missions. Environmental protection is never completed. Continuously be alert to ways to protect our environment and reduce waste. Leaders must ensure that their unit has an active and strong environmental program. They must understand the laws and know what actions to take.

Leaders bring focus, direction, and commitment to environmental protection. Commanding officers should ensure the following environmental programs are in place and are being maintained:-Hazardous materials program.-Hazardous waste program.

-Hazardous communications program.

-Pollution prevention and hazardous waste minimization recycling program.

-Spill prevention and response plan program.

Safety: In a training environment, leaders must perform a risk assessment in accordance with current Risk Management Doctrine. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC).

Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW current CBRN doctrine.

All operations will be performed to protect and preserve Army personnel and property against accidental loss. Procedures will provide for public safety incidental to Army operations and activities and safe and healthful workplaces, procedures, and equipment. Observe all safety and/or environment precautions regarding electricity, cable, and lines. Provide ventilation for exhaust fumes during equipment operation and use hearing protection when required IAW AR 385-10, the Clean Air Act (CAA) and the CAA amendments, and the OSHA Hazard Communication standard.

Accidents are an unacceptable impediment to Army missions, readiness, morale, and resources. Decision makers at every level will employ risk management approaches to effectively preclude unacceptable risk to the safety of personnel and property affiliated with this task. (a) Take personal responsibility. (b) Practice safe operations. (c) Recognize unsafe acts and conditions. (d) Take action to prevent accidents. (e) Report unsafe acts and conditions.
