

Training and Evaluation Outline Report

Status: Approved

28 Sep 2012

Effective Date: 08 Oct 2020

Task Number: 55-CTR-0004

Task Title: Coordinate Use of Host Nation or Contracted Rail Assets

Distribution Restriction: Approved for public release; distribution is unlimited.

Destruction Notice: None

Foreign Disclosure: FD1 - This training product has been reviewed by the training developers in coordination with the CASCOM foreign disclosure officer. This training product can be used to instruct international military students from all approved countries without restrictions.

Supporting Reference(s):

Step Number	Reference ID	Reference Name	Required	Primary	Source Information
	ATP 4-14	EXPEDITIONARY RAILWAY CENTER OPERATIONS http://armypubs.army.mil/doctrine/DR_pubs/dr_a/pdf/atp4_14.pdf	Yes	Yes	

Conditions: Higher HQ has tasked the unit to coordinate use of Host Nation (HN) or contracted rail assets. The unit's initial or additional plans and preparations are complete. This task will be performed under all environmental conditions; higher HQ analysis of the area of operations (AO) is available. Coalition partners, noncombatants, and media are present in the AO; host nation contract support may be used. This task should not be trained in MOPP 4.

Standards: Host Nation (HN) or contracted rail assets have been coordinated and in use supporting the theater with rail mode of transportation. In accordance with the tactical SOPs and directives provided by the higher headquarters or commander.

NOTE: Leaders are defined as those Soldiers who are in a the senior officer, warrant officer, and/or NCO position designated by paragraph and line number of the unit Table of Organization and Equipment (TOE). Leaders may also be any personnel assigned to the unit and designated as leaders by the commander.

Live Fire: No

Objective Task Evaluation Criteria Matrix:

Plan and Prepare		Execute						Assess	
Operational Environment	Training Environment (L/V/C)	Leaders Present at Training/Required	Present at Training/Required	External Eval	Performance Measures	Critical Performance Measures	Leader Performance Measures	Evaluator's Observed Task Proficiency Rating	Commander's Assessment
BDE & Above									
Dynamic and Complex (All OE Variables and Hybrid Threat)	Night	IAW unit CATS statement.	>=85%	>=80%	Yes	All	80-90%	T	T
			75-84%						
Dynamic and Complex (All OE Variables and Single Threat)	Day		65-74%	75-79%	No	<All	80-89%	P	P
			60-64%	60-74%					
Dynamic and Complex (<All OE Variables and Single Threat)			<=59%	<=59%	<=50%	<=79%	U	U	

Remarks: The following definitions shall be used:

Static: Aspects of operational variables (PMESII-PT) needed to stimulate mission variables (METT-TC) are fixed throughout the unit's execution of the task.

Dynamic: Operational variables and Threat TTPs for assigned counter- tasks change in response to the execution of BLUFOR's task.

Complex: Requires a minimum of four (Terrain, Time, Military [Threat], and Social [Population]) or more operational variables; brigade and higher units require all eight operational variables (PMESII-PT) to be replicated in varying degrees based on the task being trained.

Single Threat: Regular, irregular, criminal, or terrorist.

Hybrid Threat: The diverse and dynamic combination of regular forces, irregular forces, terrorist forces, and/or criminal elements unified to achieve mutually benefitting effects.

To obtain a T or T- this task must be conducted in a dynamic and complex environment with 4 plus OE variables and a hybrid threat at night with 75% or more leaders present, greater than 80% of Soldiers present at, receive a "GO" on 80% or more of the performance measures, ALL of the critical performance measures and at least 80% "GO" on the leader performance measures. Must be conducted during an external evaluation.

Task steps and measures were developed using the Plan, Prepare, Execute and Assess (PPEA) construct to reinforce the operations process and is implied throughout the T&EO.

Notes: Training begins with the execution of pre-combat checks and inspections. Training ends when designated training objectives for the particular training events or exercises are performed to Army standard. Unit leadership should conduct an after action report (AAR).

Safety Risk: Low

Task Statements

Cue: Higher HQ has tasked the unit to coordinate use of Host Nation (HN) or contracted rail assets.

DANGER
Notice should alert users to the possibility of immediate death or permanent injury. Although damage to equipment may occur, the major concern is the probability of death or permanent injury if the warning is ignored.

WARNING
Notice should alert users to the possibility of immediate personal injury or damage to equipment.

CAUTION
Notice should alert users to the possibility of personal injury or damage to equipment that may result from long-term failure to follow correct procedures.

Performance Steps and Measures

NOTE: Assess task proficiency using the task evaluation criteria matrix.

NOTE: Asterisks (*) indicate leader steps; plus signs (+) indicate critical steps.

STEP/MEASURE

- + 1. Unit receives the mission from higher headquarters.
- +* 2. The commander issues initial guidance.
 - a. Unit leaders plan, using troop-leading procedures.
 - b. Determine if unit can support the mission with internal assets.
 - c. Develop a tentative plan.
 - d. Determines resources and the areas of responsibility (tasking) of subordinate units/teams.
 - e. Briefs higher headquarters.
- + 3. Unit staff conducts mission analysis.
 - a. Staff conducts MDMP to determine mission requirements.
 - b. Analyzes the higher headquarters operations order.
 - c. Prepares special staff estimates.
 - d. Analyzes the operations, to include forces required and HN training program.
 - e. Determines the flow of support to the HN and time spent by each team to conduct their assigned mission.
- + 4. Unit leadership and staff establish rapport with the HN force and their leaders.
 - a. Establishes working relationship with their leaders and subordinates and convinces them to accept United States operational guidance.
 - b. Recommends improvements to the organization needed to maximize the strengths and minimize the weaknesses of the available assets.
- + 5. Rail teams provide planning, training and expertise to HN or contractors.
 - a. Identify personnel required to accomplish the mission.
 - b. Determines what HN functions are tracked and evaluated for progress and how they are measured and reported.
 - c. Conducts joint, interagency, multinational, and HN coordination.
 - d. Provides rail expert(s) to advise HN on rail operations, training and planning responsibilities.

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to the current Environmental Considerations manual and the current GTA Environmental-related Risk Assessment card. Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT

Safety: In a training environment, leaders must perform a risk assessment in accordance with current Risk Management Doctrine. Leaders will

complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW current CBRN doctrine. See ATP 5-19
